PREPARATION

Prepare different egg shirts using tempered chocolate.

Fill the polycarbonate molds with two half eggs and immediately pour the excess chocolate into the tempering machine.

Crystallize at a temperature of about 15 °C, leaving the moulds turned upside down to drain the excess chocolate well.

After about 2 minutes check that the chocolate is partially crystallized and therefore has a "plastic" consistency.

Shave the edges of the eggs well with a spatula eliminating the excess chocolate.

PREPARATION

Prepare the various fillings by melting the various CHOCOSMART in the microwave at 35 °C, then add the crunchy part, mixing gently.

Pour the melted filling at a temperature of 28-30 °C and rotate the mould repeatedly so that a not excessive layer of filling is formed over the entire internal surface.

Drain the excess product on a grid with parchment paper.

Allow to crystallize and wait for the eggs to come off the moulds.

Unmold and join the two half shells as usual by slightly heating the edges and making them

adhere well to each other.

To achieve the matte striped effect you need to put the eggs in the refrigerator for 1 hour and then scrape them with a nozzle.
