

# **CHOCOLATE PANDORO**

## A CLASSIC ITALIAN LARGE LEAVENED, TWO-KNEADED AND MADE WITH CHOCOLATE.

DIFFICULTY LEVEL B B B

### FIRST DOUGH

INGREDIENTS		PREPARATION
DOLCE FORNO MAESTRO	g 6500	- Start with DOLCE FORNO, brewer's yeast and water.
WATER	g 2000	- When the dough is formed, add the eggs several times, until a smooth structure is obtained and the
UNSALTED BUTTER 82% FAT - SOFT	g 1300	glutinous mesh is well formed.
EGGS	g 750	- Finally, insert the butter twice and continue to knead until the dough is elastic and dry at a
FRESH YEAST	g 36	temperature of 26/28 °C.
		- Leave to rise at 30 $^{\circ}\text{C}$ for 4,30 hours, or at least until it triples.
		WARNING:
		- It is advisable to make the "spy", putting 333 g of finished dough in a 1 liter jug to verify the effective
		triplication.
		- If the temperature of the first dough should be above 28 $^{\circ}$ C, it will be necessary to reduce the time
		of the first rising.

## **EMULSION** INGREDIENTS

INGREDIENTS		PREPARATION
SINFONIA CIOCCOLATO FONDENTE 68%	g 2000	- Add the chocolate chips to the hot water and emulsify with the help of a blender.
WATER - 70°C	g 1500	- Once all the chocolate has melted, add the cocoa 22-24 to the jug and continue mixing.
CACAO 22-24	200	- Turn the butter in a planetary mixer with a leaf.
UNSALTED BUTTER 82% FAT - SOFT	g 2500	- Whiten the egg yolk with the sugar without whipping it and add it to the butter.

EGG YOLK	g 500	- Add the honey, then add the aromas and the orange paste.
CASTER SUGAR	g 500	- Mix and add to the butter.
HONEY	g 300	- Add the chocolate ganache and turn for a few minutes.
		- Store at room temperature until use covered with a layer of film.

### SECOND DOUGH

INGREDIENTS	PREPARATION
DOLCE FORNO MAESTRO g	- Add the OVEN CAKE and yolk to the first dough (1) and start kneading.
EGG YOLK	O00 - When the dough is well formed, add the sugar and salt.
CASTER SUGAR g !	- Insert the remaining yolk (2) three times.
SALT	- Add the emulsion several times until the dough is smooth and dry.
EGG YOLK	- Finish with the 68% chocolate chips placed in the refrigerator for at least 2-3 hours.
SINFONIA CIOCCOLATO FONDENTE 68%	- Check that the temperature of the dough is 26-28 °C.
	- Kneading time: 40/50 minutes in kneading machine with dipping arms.

### FINAL COMPOSITION

- Do not let it rest and divide it in the size of 1050 gr. Roll tightly and place in the moulds previously buttered with ointment butter.
- Place relative humidity of about 70% at 21 <sup>o</sup>C for about 15 hours or until the dome reaches the edge.
- Do not prick the surface before cooking to avoid cracking the dome.
- Bake at 165 °C for about 50 minutes.
- After cooking, check with the help of a thermometer that the heart product has a temperature between 96/98 °C.
- Allow to cool in the moulds for about 2 hours and remove the moulds.
- Leave them to dry for 6 to 7 hours upside down and pack in moplefan bags.

### **WARNINGS**

How to Calculate the temperature of the water in the first dough:

This method is correct if you have a kneader with dipping arms, if alternatively you have a spiral mixer, keep in mind that the same tends to heat the dough a lot, thus reduce the water temperature by at least 5°C.

In order to obtain the correct final temperature of the dough, let's assume 26° C, follow the diagram below.

It will be necessary to know and then measure 3 values:

- 1) the value of the ambient temperature
- 2) the temperature value of the Dolce Forno
- 3) the value defined in function of the mixer used (plunger 15, spiral or planetary mixer 20).

CALCULATION: Final Temperature  $26^{\circ}$ C x 3 (fixed number) = 78 - value 1 (e.g.  $20^{\circ}$ C) - value 2 (e.g.  $18^{\circ}$ C) - value 3 (e.g. 15) = 78-20-18-15 = 25 which will be the temperature of the water in the first mixture using a dipper
