g 900 Roll out the dough into a rectanglular layer, lay MARBUR CROISSANT onto a half (250g of MARBUR CROISSANT 20% margarine for 1kg of dough) and fold so that the other half cover the first and the sheet of butter is completely enclosed in the dough. Seal the edges well. Roll out in order to shape the dough into a rectangle again and make a 3-layer fold, then repeat this step twice, making three 3-layer folds in total. Let the laminated dough rest for 5 minutes before working it.

#### FINAL COMPOSITION

After the rest time, roll out the laminated dough to 4 mm and cut into triangles.

Roll them up well tight, from the base up, and bend the tips in order to give them a crescent shape.

Place them onto trays and store into the proofer room for 80-90 minutes at 28-30°C with relative humidity of the 80% (the temperature has to be not higher than 26°C, if the dough is laminated with butter, and not higher than 30°C if you use margarine instead).

Brush the croissants with beaten egg and bake in a deck oven at 190-200°C for about 20 minutes.

#### AMBASSADOR'S TIPS

If you prefer, you can replace butter with margarine in the croissant dough.
